(A Digital Solution for Correctional Homes
& Visitors)

(<https://eprisons.nic.in>)

A "Digital India" Initiative

SCOPE

The extent of this project is to computerize and integrate all the activities related to prison and prisoner management. This application suite provides vital information about the inmates lodged in the prisons, in real time environment, to the prison officials and other entities involved in Criminal Justice System. It also facilitates online visit request and grievances.

ABOUT ePRISONS SUITE

ePrisons application suite, developed by NIC, is a cloud based product designed with easy to use GUI and embedded with comprehensive security features. It can easily be adopted by any state prisons department with minimum customization efforts since all the possible customization features are parameterized and can be configured by the users.

ePRISONS MIS

Management Information System used at the prisons for their day to day regular activities. The major modules of ePrisons MIS are:

- Prisoner Information Management System(PIMS)
- Visitor Management System (eVisitor)
- Hospital Management System (eHospital)
- Legal Aid Management System
- Inventory Management System
- Prison Management System (PMS)
- Police Intelligence System
- Court Monitoring
- Kiosk Information

NPIP

National Prisons Information Portal (NPIP) is a citizen centric portal showcasing statistical data of various prisons in the country.

Through this portal:

- Visitors can book visit request to meet their ward inside the prison.
- They can also submit Grievances with respect to their wards inside the prisons
- Various investigating agencies can track Inmates in a secured way.

KARA BAZAAR

Portal for showcasing and selling the products manufactured by inmates in various prisons of the country.

Necessary platform required for on boarding of all the state prisons' departments is in place.

CLIENTS

AIM

- Common application platform for centralized data about prisoners nationwide
- Easy access to common people for visiting their wards lodged in the prison
- To provide real time information about the inmates to the society
- Accessibility of vital information to inmates lodged inside the prisons
- Assisting prison management in meeting their various day to day information needs
- Information exchange with other stakeholders of the criminal justice system
- To provide information to various intelligence and investigation agencies

ePrisons Software Application has marched into International arena with its adoption by Mauritius Prison Service in two phases

KEY FEATURES

- Available as SaaS from NIC Cloud, which provides high availability, scalability and a robust system to the users
- The solution is ready to be adopted by any prison / stakeholder
- Parameterized and configurable gap aspects
- SMS and email alerts
- Equipped with necessary services required for integrating with other Criminal Justice System stakeholders
- Authorization checks & validation to improve the data quality

SERVICES

To the Public

- Registration of visit request and Status query of the same
- SMS/eMail Alerts to the visitors
- Statistical information/ drilled down Reports on national basis
- Submission of grievance
- KaraBazaar

To the Prisons

- Controlled registration of prisoners (checking duplicity of prisoner's entry to the jail), Recording and tracking their movement and their management throughout their term inside the prison
- Well-structured information about prisoner
- Availability of various reports (daily/monthly) for administrative purpose. Reports also include Graphical and Statistical reports for monitoring and informational purpose
- Enables the prison management to utilize their resources optimally
- Various alerts like Hearing, 436/436 A, parole jump, inventory, medicine, etc. for monitoring purpose

To the Courts

- Easy access of CrPC 436 / 436 'A'/441 reports to the court
- Availability of Nominal roll online to the court
- Alerts for jumping Parole/Interim Bail return due dates
- Provisioning other information of the prisoner online to the court on demand
- Providing e-custody certificate online

To the Police, Other investigating agencies

- Nationwide search for inmates and their complete profile
- Generating alerts in the form of eMail and SMS at several events
- Creating Reports in statistical format for any stipulated period which can be drilled down to the level of individual jails

Presented with “Gems of Digital India Award 2018” (Analyst’s Choice)
for excellence in e-Governance

ABOUT NIC

National Informatics Centre (NIC) was established in 1976, and has since emerged as a "prime builder" of e-Government / e-Governance applications up to the grass roots level as well as a promoter of digital opportunities for sustainable development. NIC, through its ICT Network, "NICNET", has institutional linkages with all the Ministries /Departments of the Central Government, 36 State Governments/ Union Territories, and about 708 District administrations of India. NIC has been instrumental in steering e-Government/e - Governance applications in government ministries/departments at the Centre, States, Districts and Blocks, facilitating improvement in government services, wider transparency, promoting decentralized planning and management, resulting in better efficiency and accountability to the people of India.

ARUN KUMAR GUPTA

DG & IG of Correctional Services, West Bengal

The implementation of NIC ePrisons module in West Bengal prison is highly appreciated. Your untiring effort & guidance will go a long way in digitisation of West Bengal Prisons.

SHRI AJIT SINGH

Director General of Police, Prison, Jaipur (Rajasthan)

It is the team's availability for interaction with the users and ready incorporation of the suggestions given to them made ehistory Ticket Facility in Central jail, Jaipur as an extension of the ePrisons software.
