GOVERNMENT PROCUREMENT MADE EASY & SIMPLE

GePNIC
Simplified Procurement

Government eProcurement System of NIC (GePNIC) has been developed by National Informatics Centre (NIC) in consultation with Procurement Policy Division, Department of Expenditure, Ministry of Finance to cater to the procurement/ tendering requirements of Government.

Allows free access to tender documents, secure online bid submission and access to bid opening event from any place in a faster and secure way by adopting industry standard open technologies.

Aims at transparency and non-discrimination amongst bidders. The system works within the legal and financial framework of Govt of India.

Configurable for use by an organization at it's apex level and at multiple subordinate levels, at which tenders could independently be floated.

- Resubmission/ Withdrawal within the timeline
- Privilege to witness Online Bid Opening
- Hiding of Bidder Identity till Bid Opening

Testimonials

"Central Public Procurement Portal is a robust and secured platform offering full transparency and accountability in public procurement for the Government of India, most State and local Governments across India. CPPP is a trusted tool for vendors and public servants, besides being a valuable data source for procurement performance analytics."

K.Rajaraman, IAS
Joint Secretary
Department of Expenditure,
Ministry of Finance, July 2018

"Being associated with this project since inception, I take this immense pleasure for the success of GePNIC both in the State as well as at National level. From the beginning GePNIC is being planned to be a generic project which made it's adaptability fast across departments. We have crossed many milestones during this process and GePNIC has been successful in establishing itself as a robust procurement platform. My good wishes are with the team."

P K Mohapatra, IAS
IT Secretary
Govt. of Odisha, 2008-09
